This FSG is an important document regarding who we are, the services and products we are authorised to provide, how we and other relevant parties are remunerated, any potential conflicts of interest we may have and our internal and external dispute resolution procedures and how you can access them.

Before acquiring a financial product through us we will give you information about that product to help you make an informed decision about it, which may include a disclosure document prepared by the product issuer such as a Product Disclosure Statement (**PDS**), Prospectus or other offer document. These disclosure documents will contain information that will assist you in making an informed decision about the product. This usually includes information about the costs and charges that may apply.

We will not provide personal financial product advice to retail clients. Accordingly, you should not expect a Statement of Advice (**SOA**) from us. Before you make any investment decision, we recommend that you obtain investment advice tailored to address your individual objectives, financial situation and needs from a licensed financial adviser.

We will only provide general advice to retail clients. General advice does not take into account your objectives, financial situation or needs. A person that provides general advice must warn the client that the advice does not take into account your objectives, financial situation or needs. Where we provide general advice we will also generally provide you with a general advice warning. The general advice warning will be given in the same manner as the advice is provided (for example in writing or verbally).
